PROFESSIONAL EXPERIENCE

Enterprise Strategist & Operations Intern — Shree Sai Gopinath Traders *May 2026 – Aug 2026*

- Led end-to-end requirements gathering and process mapping for a company-wide digital transformation at an FMCG distribution business, translating stakeholder needs into a phased implementation plan and testing each change before go-live.
- Directed data migration and reconciliation across inventory and customer management systems for a 250+ SKU portfolio, owning data mapping updates, investigating discrepancies, and documenting SOPs to keep records accurate.
- Sourced and managed technology vendors (Zoho Workplace), coordinating cross-functional rollout and providing hands-on training and ongoing support to internal teams adopting the new systems.

PROJECTS & RESEARCH

Marketing Research & Power BI Dashboard — Darling Retail Pvt Ltd

- Built a Power BI dashboard with dynamic demographic drill-downs to surface category- and region-level insights for management reporting (66.67% local user base; Mobiles/Gadgets as top category).

IntelliInvest: AI-Driven Portfolio Optimization System *Mar 2026 – Apr 2026*

- Built a Flask-based application using Decision Tree classification and K-Means clustering to profile risk and automate portfolio allocation decisions.

Study of How M&A Deals Affect Trading Volume Signatures *Ongoing 2026*

Guided by Dr. Bibhudatta Panda, Associate Professor of Finance, Le Moyne College, New York

- Running a structured event-study analysis of abnormal trading volume around M&A announcements, combining data collection, quantitative analysis, and literature review under faculty supervision.

Equity Research Report: Tata Consultancy Services *Mar 2026*

- Analyzed financial statements, competitive positioning, and macroeconomic drivers to produce a structured business and valuation analysis of TCS.
